Board of Studies (BoS) Meeting Agenda

Date: 12/7/2024

Chairperson: Dr. Praveen J

Agenda Items:

1. Welcome by Chairperson
2. Confirmation of Previous BoS Minutes
3. Curriculum Revision Discussion
4. New Electives and Interdisciplinary Offerings
5. Textbook and Reference Updates
6. Question Paper Pattern Review
7. Recommendations to Academic Council

Minutes of the BoS Meeting – Department of Electronics and Communication Engineering

Meeting No.: 02 | Date: 12/07/2024

Chairperson: Dr. Praveen J

Members Present:

Name of the Person	Position	Signature
Dr. H.D. Maheshappa Pro-Vice Chancellor GM University, Davanagere – 577006 Email: pro-vc@gmu.ac.in	**Pro Vice Chancellor**	12/07/24
Dr. Praveen J Director, School of Engineering GM University, Davanagere – 577006 Email: directorfet.se@gmu.ac.in	**Chairperson**	12/7/24
Dr. Manjunath P Professor and Dean Academics Department of ECE JNNCE, Shimoga	**External Member**	12/7/24
Dr. K M Sudharshan Professor & Director School of ECE Reva University, Bangalore - 560061 Email: dir.ece@reva.in	**External Member**	
Dr. Kavitha K J Associate Professor Dept. of ECE GM University, Davanagere – 577006 Email: kavithakj@gmit.ac.in	**Member**	12/7/24
Mrs. Manjula B K Assistant Professor Dept. of ECE GM University, Davanagere – 577006 manjulabk@gmit.ac.in	**Member**	12/7/24
Mr. Harisha G C Assistant Professor Dept. of ECE GM University, Davanagere – 577006 harishgc@gmit.ac.in	**Member**	12/7/24
Mr. Samapth Kumar B Assistant Professor Dept. of ECE GM University, Davanagere – 577006 samapthkumarb@gmit.ac.in	**Member**	12/7/24
Dr. Pradeep T M Assistant Professor Dept. of ECE GM University, Davanagere – 577006 Dr.pradeeptm.fet.se.ece@gmu.ac.in	**Member**

Proceedings and Recommendations:

- Experts suggested that Placement Coordinators should collect feedback from HR professionals during student placement interviews to understand industry expectations.
- It was recommended to incorporate additional laboratory sessions using industry-standard tools such as Multisim, MATLAB, OrCAD, and PCB design software.
- Real-time project-based learning should be introduced to enhance students' application-level understanding.

Curriculum Recommendations (Semester-wise):

I Semester:

- The course title *Engineering Mathematics – I* should be renamed to reflect the specific branch of study.
- The course *Problem Solving through C Programming* should be redesigned to include programs relevant to the branch-specific subjects and renamed as *Programming with C*.

II Semester:

- Rename *Engineering Mathematics – II* to be branch-specific.
- Redesign *Problem Solving through Python Programming* to include programs aligned with the respective branch and rename it as *Programming with Python*.
- Separate the *Analog and Digital Design Practice* lab into two distinct labs.

III Semester:

- Rename *Engineering Mathematics – III* to align with the specific branch of study.
- Include concepts of RC and RLC analysis in the *Network Theory and Analysis* course.

IV Semester:

- Replace the outdated 8051 microcontroller content in *Embedded System Design – I* with the modern ARM Cortex-M series.
- Shift *Information Theory and Coding* to a higher semester.

V Semester:

- Develop syllabus content for *Electromagnetic Wave Theory* focusing on basic concepts and applications.
- Integrate analog and digital design concepts into *CMOS Circuits and Layout Design Practice*.
- Increase the number of professional and open electives based on subject domains.

Scanned with OKEN Scanner

VI Semester:

- Modify the course title *IoT Applications in Infrastructure Design* to a more generic and inclusive title.
- Include *Antenna and Wave Propagation* in the sixth semester curriculum.

VII Semester:

- Rename the course *LTE and 5G Essentials* to *Modern Wireless Technologies*.
- Introduce a new course titled *Sensor Applications*.

Resolution BoS/02/2024: To be Forwarded to Academic Council

- *Problem Solving through C Programming* has been renamed to *Programming with C*.
- *Problem Solving through Python Programming* has been renamed to *Programming with Python*.
- RC and RLC circuit analysis has been incorporated into the *Network Theory and Analysis* course.
- The 8051 microcontroller content has been removed from *Embedded System Design – I*, and the ARM Cortex-M controller has been introduced.
- *Information Theory and Coding* has been shifted to the sixth semester.
- The course *LTE and 5G Essentials* has been renamed to *Modern Wireless Technologies*.
- A new course titled *Sensor Application and Fusion Algorithm* has been introduced in the eighth semester.
